

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. (Previously presented) A camera having a removable image bearing medium for camera captured images that includes film or a digital memory comprising:

(a) a power source disposed in the camera;

(b) a display disposed relative to the removable image bearing medium so that the display is removable from the camera with the removable image bearing medium, wherein the display receives power from the power source when the display is in the camera and the display is disconnected from the power source when it is removed from the camera, and wherein the display responds to the applied power source when in the camera for displaying image(s) or information related to captured image(s) and continues to display such image(s) or information related to captured image(s) after removal from the camera and disconnection from the power source so that no power is applied to the display; and

(c) means for actuating the display and applying the power source to provide images of one or more captured images or information related to such one or more captured images wherein neither the display nor the removable image bearing medium includes a power source to provide power to the display when the display is removed from the camera.

2. (Cancelled)

3. (Cancelled).

4. (Original) The camera of claim 1 wherein the image bearing medium includes a removable memory card having the digital memory.

5. (Cancelled)

6. (Original) The camera of claim 1 wherein the image captured related information provides a time or date.

7. (Original) The camera of claim 1 wherein the image bearing medium displays at least one indication of the status of the camera.

8. (Original) The camera of claim 1 wherein the image bearing medium communicates an indicia of the capabilities of the display to the camera.

9. (Original) The camera of claim 7 wherein the camera actuates the display on the image bearing medium to remove camera status indications prior to removal of the image bearing medium from the camera.
